The first zone "Childhood home" features the Princess Mother's childhood memories in the Wat Anongkaram community while the second zone "Home in the wide world" traces her education both in Thailand and overseas. "Family home" tells the story about her marriage and the new life of "Madam Sangwal". "Work home" presents the Princess Mother's work she did to improve the quality of life of all Thais while the last

zone "Big house in small woods to small house in big woods" tells the story of the Princess Mother's Doi Tung Mountain development project.

The Mae Fah Luang Foundation is also involved in the exhibition, operating a booth that sells various handicrafts made by locals participating in the Doi Tung Mountain development project.
